***Holistic approach to
periorbital ageing***

High efficacy
with superior
tolerance

Renews · Brightens · Firms

Perfect Glow

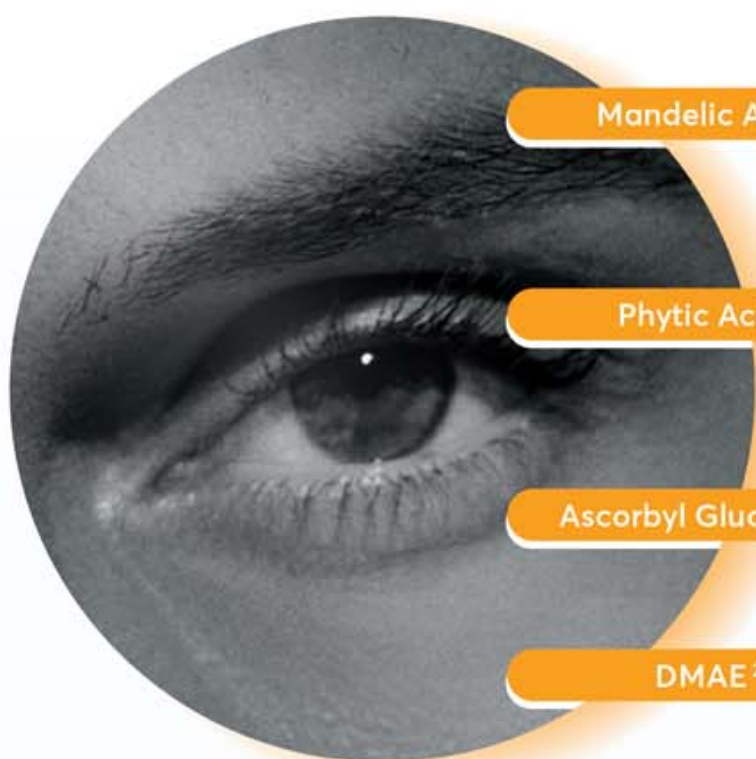

Eye Contour Peel

- pH: 3.7
- Exposure time:
 - 3 minutes
 - 5 minutes (alone)

Targeted rejuvenation for the periocular area.

Holistic approach to signs of fatigue and ageing in the periorbital area

Mandelic Acid¹

- Exfoliating: Breaks the bonds between the corneocytes favouring cell renewal
- Stimulates collagen synthesis: Improves skin elasticity and firmness
- Hyperpigmentation regulator: Inhibits tyrosinase, reducing melanin production

Phytic Acid³

- Depigmenting: Inhibits tyrosinase, reducing spots and hyperpigmentation
- Antioxidant: Neutralises free radicals and protects against oxidative stress
- Gentle exfoliant: Helps cell renewal without irritating the skin

Ascorbyl Glucoside⁴

- Protects against sun damage: Neutralises UV-generated free radicals
- Lightens skin: Inhibits tyrosinase and reduces hyperpigmentation

DMAE²

- Immediate tightening effect: acts on keratinocytes and myofibroblasts, generating a lifting effect
- Stimulation of collagen synthesis: Induces the production of collagen type I and III
- Antioxidant: Reduces free radical damage to the skin

Global Eye Boost Complex

5 vials of 3 ml / 0.10 fl oz

Up to:

+24% Skin Rejuvenation**

-20% Erythema***

+10% Skin Firmness**

Rejuvenating eye contour.

Reduces the appearance of periorbital wrinkles, dark circles, and puffiness.

Dark circles

Attenuates dark pigmentation

Eye bags

Decreases volume and swelling

Skin Laxity

Firms and tones the skin

Wrinkles

Reduces fine lines and wrinkles

Biomimetic Peptides

Acetyl Hexapeptide-1

Decreases the release of neurotransmitters and reduces the appearance of expression wrinkles or dynamic wrinkles.

Palmitoyl Tripeptide-1

Promotes the production of collagen and other components of the extracellular matrix, helping to improve skin firmness and reduce wrinkles.

Acetyl Tetrapeptide-5

It has anti-edema properties, reducing puffiness and fluid retention around the eyes. Reduces dark circles by improving microcirculation and reducing pigmentation.

Palmitoyl Tetrapeptide-7

Reduces inflammation and the production of interleukins, molecules involved in the inflammatory response, reducing redness and swelling of the skin and prevents the appearance of irritation or dryness.

Antioxidants

Glutathione

A powerful antioxidant that brightens the skin and evens out the tone, protecting it from free radical damage.

Vitamin C

Antioxidant that enhances the skin's luminosity and has a depigmenting action. It stimulates collagen synthesis having a firming effect.

Ginko Biloba Extract

Improves microcirculation, reduces inflammation and improves dark circles.

Troloxerutin

Antioxidant and anti-inflammatory, with the ability to decongest dark circles and puffiness.

Mesosynergy®

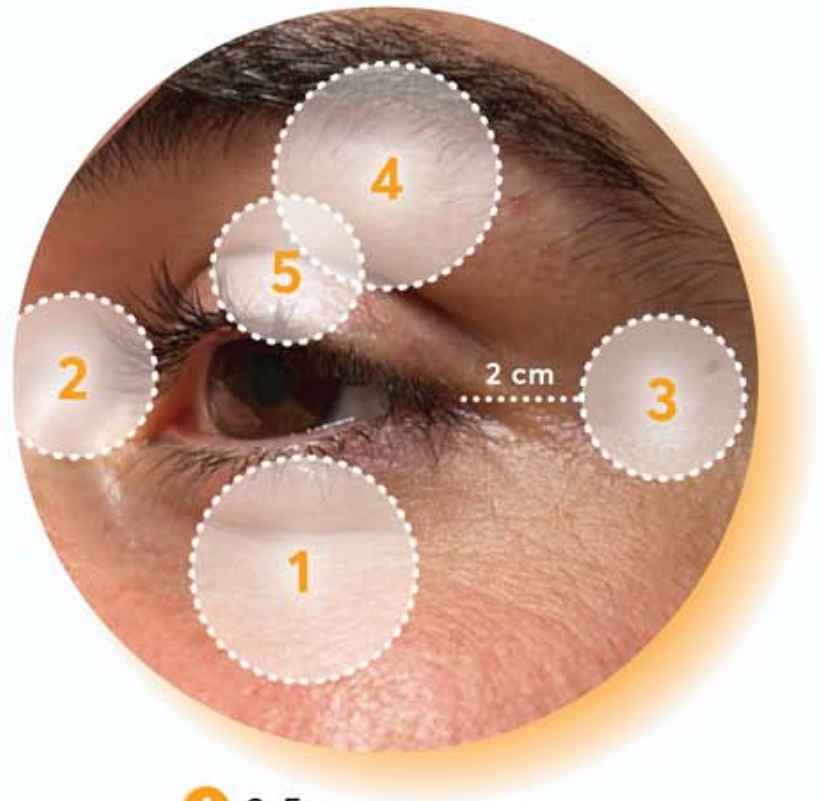

EyeRevive

Comprehensive rejuvenation of the eye contour area.

A dual-action protocol combining epidermal exfoliation (Chemical Peel) with intradermal revitalisation (Transdermal delivery).

This novel approach combines the epidermal application of Perfect Glow eye contour peel, in synergy with our neopenMED micropuncture device and our sterile regenerative Global Eye Boost Complex solution, designed to address periorbital contour imperfections.

Zones:

i 3-5 SESSIONS
according to medical criteria

i FREQUENCY
1 session per week

neopenMED

- 0.20 mm / 150 Hz
- CE-certified 0123
- 900 perforations/sec.
- Tilting head Noiseless technology

Perfect Glow Eye Contour Peel

3 ml / 0.10 fl oz
👁️ 0.5ml per eye
🕒 Zones 1, 2, 3

Global Eye Boost complex

3 ml / 0.10 fl oz
👁️ 0.5ml per eye
🕒 Zones 1, 2, 3, 4, 5

In vivo clinical study

The before and after photos show the results 21 days after three sessions, with a session every 7 days applying the Mesosynergy Eyes protocol (Perfect Glow eye contour peel, neopenMED + Global Eye Boost Complex).

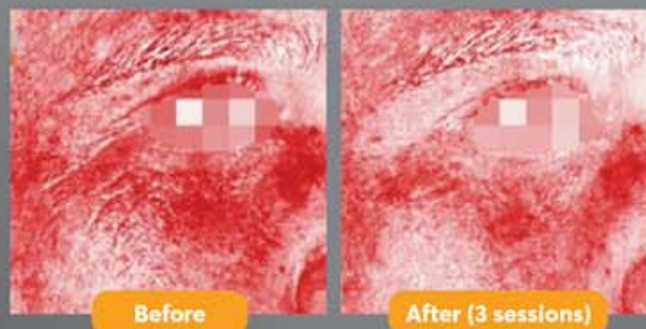

Up to:

Reduction of Hyperpigmentation[^]

Reduction of Erythema[^]

Pocket Reduction (Reduction of -1.21 ml of periorcular pockets)[^]

[^]Unretouched clinical photography, 21 weeks after 3 treatment.

Results using only **Perfect Glow**

The before and after photos show the results 12 hours after the first session, using only Perfect Glow eye contour peel.

Results with protocol **Mesosynergy® EyeRevive**

Results obtained by: Dra. Marta Serna (1, 2); Dr. Moisés Amselem (3, 4); Dr. Roberto Verlezza (5, 6)
